

Longspan Shelving

i-Rack Storage Solutions' Longspan is a strong and robust system, and has been designed for manual operation where long clear spans are required between uprights. Perfect for high-density archive storage.

Boltless Shelving

i-Rack Storage Solutions' Boltless Shelving is designed for heavy bay loads and fast easy bolt free assembly. The perfect system for single or multi-tier applications where manual operation is required.

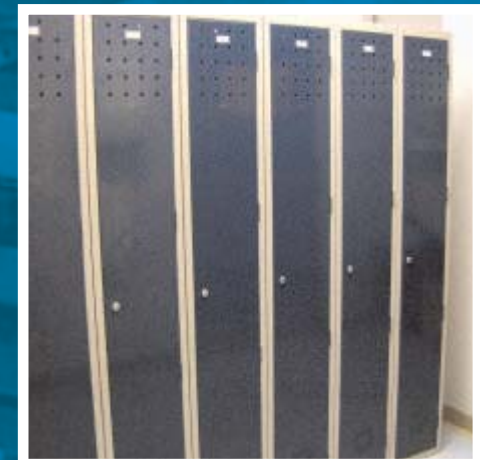

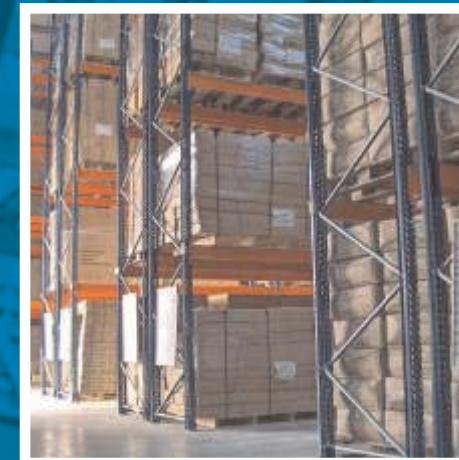

Make the most of your storage space. Call i-Rack Solutions today for free professional advice on your specific storage needs.

LOCKERS

Adjustable Pallet Racking

i-Rack Storage Solutions' expertise and dedication to technology have produced an unrivalled range of quality Pallet Racking Systems that are robust, reliable and safe. i-Rack's wide range of components enables us to offer a cost efficient storage solution to suit your exact needs and all pallet specifications.

Mezzanine Floors

i-Rack Storage Solutions Mezzanine Floors are the logical choice when floor space is at a premium. With an i-Rack Mezzanine Floor, an immediate rate free increase in floor space can be made. The i-Rack Mezzanine Floor is an all-steel construction and being a bolted assembly, can be dismantled and relocated if your needs change in the future.

Lockers + Cupboards

i-Rack Storage Solutions Lockers and Office Cupboards are designed and manufactured to your exact requirements. Constructed from high quality steel with welded joints, i-Rack lockers and cupboards are designed to last.

Mesh Partitioning

i-Rack Storage Solutions Mesh Partitioning provides the answer to your security needs by dividing and securing areas. It is easily installed yet provides a rigid and secure partition system. The wire mesh design allows clear visibility without restricting light and airflow.

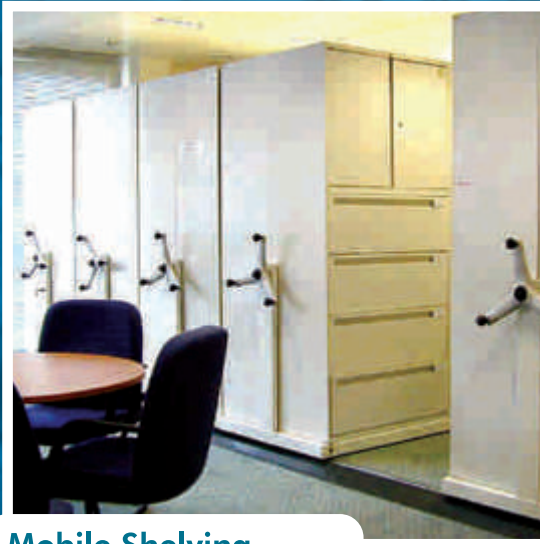

Drive-in Racking

Based on the tried and tested i-Rack Pallet Racking, Drive-in provides a high degree of space utilisation, as the racking is not divided up by aisles. Ideal for crushable goods or a 'last in first out' operation, i-Rack Drive-in offers a cost effective, high-density bulk storage system.

Cantilever Racking

i-Rack Storage Solutions (Ohra) Cantilever Racking is suitable for the storage of long products and is a robust design to cope with arduous environments.

Mobile Shelving

i-Rack Storage Solutions Mobile Shelving system is a cost effective and virtually maintenance free way of creating extra space by reducing aisles between shelving units. The system is ideal for high-density storage and can increase effective storage space by up to 80%.

Leisure Lockers

We have extended our product range to include leisure lockers and cubicles.
